HUMAN RESOURCE MANAGEMENT SYSTEM

HRM and Payroll Tool

- An efficient dashboard to get an overview of important business aspects
- An effective way of generating a payslip and calculating of salary components

Key Feature

- This tool allows you to maintain data of an employee
- It offers ease from the managerial viewpoint of Leaves, Attendance, and Timesheet
- One of the most proficient ways of managing Events and Meetings

HRMS

- Allows you to assign staff/users with restricted permissions
- Availability in multiple languages makes it a tool accessible on global platforms

Comprehensive Dashboard

It offers an overview of total staff, tickets, and account balance with its comprehensive dashboard. You get easy access to absentees in an organization along with an elaborate list for announcements and scheduled meetings. The calendar with an event view makes it easier to keep a tab on important meetings.

20
23

Staff Management

The tool allows you to create users and assign roles to them. You could manage the permission of each user by restricting their permissions. You can also search an employee profile through easy search and filter options. Lastly, you can check the last login of your staff. This helps you to keep a tab on employee activity.

Employee Databank

This feature makes it easier for a company to maintain a record of an employee's personal, company, and Bank details along with their essential documentation. Employees could view and manage their profiles.

20
23

Salary Parameters

- You could edit the components of the payslip by adding Allowance, Commission, Overtime, Miscellaneous Payments and deducting the amount for Saturation and Loan. This leads to the easy generation of monthly payslips.

Payslip

You can generate monthly payslips and make bulk payments through easy clicks. You could also change the status of the payslip with an easy CTA. An employee could view the breakdown of their salary components.

Attendance

- You could Create, Edit, and Delete Timesheets and Attendance. With a timely attendance sheet, this feature allows you to get an overview of overtime and early leave of an employee.

Leave Management

You could maintain the data of leaves by creating new leaves. This feature allows you to get a detailed insight into the leave type, reason, and duration. You could approve or reject the leave request through easy clicks.

Bulk Attendance Module

Manually adding and updating the clock-in and clock-out timings of one employee and more than one employee can be easily done with the help of the Bulk Attendance Module.

Holiday Module

Letting know the days of holiday to each is an essential element for any business to achieve timely goals and planning of leaves/ vacations. To smoothen this, the admin, as well as HR, can create, update, or delete any of the holidays.
